

COURSE OUTCOMES

A.Y:2018-19

Year/Sem: IV-II

| CO Number | Course Outcome(CO) Statement- At the end of the Course, the students will be able to | Blooms Taxonomy |
|------------------------------------------|-----------------------------------------------------------------------------------------------------|------------------------|
| Human Computer Interaction (C421) | | |
| C421.1 | Define Human computer interaction and Managing Design Processes | Remember |
| C421.2 | Explain Menu selection, Form fill-in and Dialog Boxes | Understand |
| C421.3 | Implement Command and Natural Languages and Interaction Devices | Apply |
| C421.4 | Explain Quality of Service, Balancing Function & Fashion | Understand |
| C421.5 | Explain User Documentation and Online Help | Understand |
| C421.6 | Demonstrate Information Search, Information Visualization | Apply |
| Cloud Computing (C422) | | |
| C422.1 | Identify various system models used in cloud computing | Remember |
| C422.2 | Differentiate various virtualization of OS and CPU | Analyze |
| C422.3 | Explain various cloud servicing models and usage Service oriented Architecture | Apply |
| C422.4 | Explain various cloud computing platforms and implement any one cloud application | Apply |
| C422.5 | Explain resource management policies and scheduling algorithms in cloud computing | Understand |
| C422.6 | Compare and contrast the various storage systems | Analyze |
| Distributed Systems(C423) | | |
| C423.1 | Define the characteristics and the salient architectural features of distributed systems. | Remember |
| C423.2 | Describe the features of important standard protocols which are used in distributed systems for IPC | Understand |
| C423.3 | Explain and Implement RMI | Apply |
| C423.4 | Define the basic concepts of Operating Systems | Remember |
| C423.5 | Explain Distributed File Service Architecture and Use Coordination Techniques | Apply |
| C423.6 | Explain Distributed Transactions and Use Recovery Strategies | Apply |
| Management Science(C424) | | |
| C424.1 | Describe the concept and functions of management , theories of motivation | Remember |
| C424.2 | Explain the Principles of management , control charts | Understand |
| C424.3 | Describe the different functional areas of an organization& their responsibilities | Understand |
| C424.4 | Determine & use project management tools to schedule an engineering project | Apply |
| C424.5 | Define the meaning of vision, mission , goals and strategies | Remember |
| C424.6 | Explain the various contemporary issues in management practices | Understand |
