Discrimination against women and girls is a pervasive and long-running phenomenon that characterizes Indian society at every level. India's progress towards gender equality, measured by its position on rankings such as the Gender development index has been disappointing, despite fairly rapid rates of economic growth. In the past decade, while Indian GDP has grown by around 6%, there has been a large decline in female labor force participation from 34% to 27%.

“Sri Vasavi Institute Of Engineering & Technology” providing “Gender Equality” and around 35% of the total employment are the female of all cadres. The institute supports the career progression and development of female professional and academic staff. It provides women with opportunities to grow in their leadership capabilities build professional skills and participate in important administrative roles in the college. In all the administrative committees, female faculty is also given equal opportunity to become members. Harassment to woman of any level ranging from gender discrimination to mental abuse to sexual harassment is severely dealt with at our institution. The Woman Grievance Redressal Committee has been formed to address grievances of female employees as well as students. Complaint boxes were provided in the college at respective places, so that students feel free to post complaints regarding various issues.

Under the Aegis of our college has undertaken the variety of Activities which directly benefit the women and their development. . We even organize awareness programs and orientation classes as a part of their personality development.
