1. Safety and Security:

Safety of girls is a top priority at every college campus. Nowadays, safe and supportive campus community is both an obligation and a challenge for college administrators and students. Institute should provide a comprehensive range of security amenities especially for girls within the premises, through a dedicated team of security personnel. It is a common phenomenon that most of the outstation students enrolling for different courses come out of their homes and cities for the first time in their life. It is therefore of utmost importance for institutions to provide them a comfortable and safe ambience of 'feel at home' within the campus. Women safety at any college campus is a serious concern now. So, following actions have been taken to ensure safety of the girl students.

1.1 CCTV Camera

Once a student arrives at college, whether they walk, cycle, travel by bus or are dropped off, parents expect their safety to be a priority. However, as the number of students attending each college continues to increase, the likelihood of incidents, crime and violence sadly also rises. CCTV surveillance systems are excellent deterrents against incidents occurring during college hours, whether that is bullying, unauthorized access, or vandalism. Security cameras can help to keep student safety at the forefront and can be used to identify bottleneck areas on the college premises.
