**Duration:** 3 Hours

**Brief Description:**

There were sessions on introduction to Intellectual Property Rights for Academia & Industry Start Ups (IPR-AISU) have been defined as ideas, inventions, and creative expressions based on which there is a public willingness to bestow the status of property. IPR-AISU provide certain exclusive rights to the inventors or creators of that property, in order to enable them to reap commercial benefits from their creative efforts or reputation. There are several types of intellectual property protection like patent, copyright, trademark, etc. Patent is recognition for an invention, which satisfies the criteria of global novelty, non-obviousness, and industrial application. IPR-AISU is prerequisite for better identification, planning, commercialization, rendering, and thereby protection of invention or creativity. Each industry should evolve its own IPR-AISU policies, management style, strategies, and so on depending on its area of specialty. Pharmaceutical industry currently has an evolving IPR-AISU strategy requiring a
