C Pakkiraiah
Department of ECE
Sri Vasavi Institute of Engineering & Technology
Nandamuru, Pedana.

To
The Principal
Sri Vasavi Institute of Engineering and Technology
Nandamuru.

(Through Proper Channel)

Respected Sir,

The Research & Development Cell is proposing to organize **one day workshop** on the topic "**Journal Metrics and Publication Ethics in Higher Education perspective**" on 13-04-2023, Thursday. Hence I request you to give permission to organize the seminar for the benefit of all the students.

The Guest Speaker will be **Dr.P.Veera Brahmachari, Associate Professor**, at Krishna University, AP.

Thanking you sir,

Your's sincerely
(C. Pakkiraiah)

Requesting you to conduct seminar on Journal metrics and publication in higher education perspectives

chandra suresh <chandrasuresh@sviet.edu.in>
to veerabramha

Wed, Apr 12, 9:10 PM (12 days)

We the College of Sri vasavi Institute of Engineering & Technology ,request you to conduct a seminar on "Journal met in higher education perspectives" for our faculty members. If possible conduct this seminar on 13-04-2023 April. Please us.

Thanking you sir,
Regards,
A.Cahndra Suresh
R&D co-ordinator

REPORT

A SEMINAR ON

JOURNAL METRICS & PUBLICATION ETHICS IN HIGHER EDUCATION PERSPECTIVES

Journal metrics are useful for evaluating the collective impact of the journal's total output, not the impact of an author's individual contribution. Most of the indices that supply journal-level metrics, are selective and employ a rigorous screening process that includes an assessment of the journal's potential citation impact alongside quality control measures, such as the journal's publication ethics standards, research integrity practices, peer review model, and other criteria.

Journal Citation Reports (JCR) were developed in the 1970s by Dr. Eugene Garfield and Dr. Irving Sher. The main use case at the time remains the strongest use case today, and that is to assist librarians in managing their journal collections—to which journals should they subscribe, which ones are the strongest or most popular in their fields. Over the years, the use cases have expanded; JCR has become a valuable tool for publishers and for researchers as well. The most well-known indicator in the JCR is the Journal Impact Factor (JIF). The Journal Impact Factor is a measure of the frequency with which the average article in a journal has been cited in a particular year. It is used to measure the importance or rank of a journal by calculating the times it's articles are cited. The 5-Year Impact Factor can be a more stable metric for smaller titles as there are a larger number of articles and citations included and is useful for journals or subject areas where it takes longer for work to be cited. Clarivate™ Analytics is the current owner of the Web of Science™(WOS). The WOS began in the 1960s as the Institute for Scientific Information, or ISI. In the 1990s, it became part of Thomson (referred to as Thomson, Thomson Scientific, or Thomson ISI), and then Thomson Reuters.
