**Institution organizes professional ethics programs for students, teachers, administrators and other staff.**

The staff members of SVIET are dedicated and co-ordinate with others in work for smooth running of the college. The faculty not only teach the subject and they mould the students in a good way in all aspects.

Ethics and value provide the frame work for students to enhance their own strengths and talents as they advance in their careers. Ethics is a system of value-based norms that dictates the moral behavior of a certain group or society. Ethics is the study of human interaction; it is concerned with the meaning of life and what is right and wrong. This is the most fundamental sense that distinguishes humans. It is like man's ability to put all of his values in the right place at the right time. Values are the foundation upon which life's infrastructure is built. When society's survival is at stake, living with values becomes critical.

All the human beings continuously aspire for a happy life, a fulfilling and successful life, and the purpose of education is to provide adequate competence to actualize this aspiration. The process of Value Education has to be that of Self Exploration, and not of giving sermons or telling dos and don'ts. Whatever is found as truth or reality may be stated as proposal and has to be verified at the own right. It is process of dialogue between 'What you are' and 'What you really want to be

The students of SVIET of all branches are studying Ethics and Universal Human Values (UHV) as a compulsory paper in the curriculum itself and faculty are initiated to do UHV I & II Faculty Development Programs (FDP) conducted by the AICTE. Curriculum syllabus and faculty certificates are enclosed with the document.
