Participants: 00

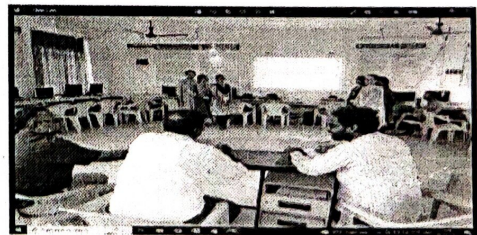

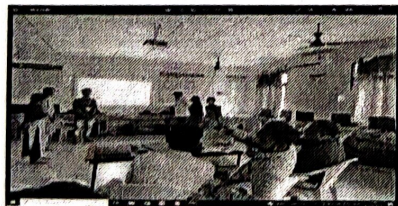

Duration: 3 Hours

Brief Description:

On behalf of R & D Cell SVIET we celebrate world creativity and Innovation . It allows the growth of many new ideas and inventions for students. It works in all fields like education, business, or entertainment. Innovative ideas can change the course of student lives for the better. In education, it has the power to make a difference by implementing practical knowledge of student. It also determines the growth of our organization. Innovation enhances your mental abilities such as focus, imagination, memory, and reasoning power. It is a way to challenge yourself with something new and helps you stay motivated in whatever activity you're doing. Innovation changes how we learn things instead of just reading about them in textbooks or online sources. Students are allowed to do practical activities that help them apply what they've learned to real-life situations.
